

CYBERSECURITY MEDICAL DEVICE INDUSTRIES

The course content relates to cybersecurity for medical devices in general, with references to international standards such as ISO 14971, AAMI TIR 57 and NIST. In addition to a comprehensive overview, we also provide detailed insights into the areas of analysis and methods. In this way, you learn how cybersecurity becomes an integral part of your projects and benefit from our industry knowledge and experience.

DURATION: 1 Day

PRICE: € 700 / £ 650 per person

LANGUAGE: English or German

COURSE CONTENT:

Module 1: Cybersecurity overview (Half day)

- Cybersecurity standards overview (AAMI, ISO, IEC und FDA)
- Risk analysis in cybersecurity with links to ISO 14971, AAMI TIR 57 and NIST
- Cybersecurity management and the ISO/IEC 27000 series
- Network products and the relation to the IEC 80001 series
- Standalone products
