

**Lorit Consultancy**, with offices in Salzburg and Edinburgh, provides consulting, support and training for the implementation of projects in the medical device, automotive and other safety industries. With many years of expertise with the complex exercise of international standards compliance and in the area of safety-related requirements, we have been supporting renowned customers around the globe since 2014. The focus is always on the successful development and introduction of innovative and safe products.

For our location in Salzburg we are looking for a

## **Safety & Reliability Consultant (m/f/d)**

**38.5 hours per week (immediately, home office / Salzburg)**

### **YOUR TASKS:**

Join us in the further expansion of our Salzburg office!

With your experience in the reliability and safety industry, you will support our customers in reliability and safety analyses. As a consultant, you will be responsible for reviewing products, projects and processes, independently performing risk analyses and reviews, and being the first contact for your international customers.

You will also play a key role in the further development of the company and our international training expertise, conducting training courses (RAMS, ISO 26262 and IEC 60601) and writing industry papers.

### **YOUR PROFILE:**

- o University degree
- o At least 5 years of relevant work experience
- o Knowledge of RAMS and reliability methods e.g. Reliability Block Diagrams (RBD) and Monte Carlo Chains
- o Experience in requirements management and tools
- o Knowledge of failure analysis methods such as FTA, STAMP, HAZOP or FMECA
- o Knowledge of reliability standards such as 217+, FIDES, IEC TR 62380 or SN 29500
- o Experience of presenting at events
- o Motivated for continuous learning
- o Comfortable working as part of a team or as an individual
- o Fluent in written and spoken English and German

Knowledge of software and hardware development and experience as a trainer would be an advantage. Equally so, knowledge of safety standards e.g. ISO 26262, IEC 61508, IEC 60601 or DO 254/178C is beneficial.

### **WE OFFER:**

- o Flat hierarchal structure and a pleasant working atmosphere with a hands-on mentality
- o Internal and external training and a diverse range of tasks
- o Flexible working hours and the opportunity to work from home
- o Participation in training and conferences
- o Interesting business travel opportunities

For this position, we offer an attractive salary commensurate with your qualifications and experience. For legal reasons, please note that the minimum annual salary is €80K,-- gross (on a full-time basis).

**If you are interested in joining our motivated and experienced team, please send a resume to [info@lorit-consultancy.com](mailto:info@lorit-consultancy.com).**
